

Over Door Light

ZKRUNCORTKLMP10

ZKR

The Over Door Light is located above the patient room door in the corridor. Its half-sphere shape makes it easily noticeable from any angle of view.

The Over Door Light can indicate the call status of the room with up to 7 different colors (red, green blue, cyan, yellow, magenta, and white). It has very low energy consumption with environment-friendly LEDs. It is flush mounted by standard, but a surface montage box can be provided if necessary.

Technical Specification

ZKRUNCORTKLMP10

<i>Weight</i>	56 g
<i>Width</i>	80 mm
<i>Depth</i>	35 mm
<i>Height</i>	80 mm
<i>Light Type</i>	LED
<i>Operating Temperature / Humidity</i>	-20°C +60°C / % 30 %80 RH
<i>Raw Material</i>	PC-ABS-FR
<i>Operating Voltage</i>	12V
<i>LED Colors</i>	Red, Green, Blue
<i>Ports and Slots</i>	1xRJ45
<i>Color</i>	White
