

VoIP Pull-Cord Call Unit

ZKRUNCIPCNFWCS001

ZKR

The VoIP Pull-cord Call Unit is used in patient bathrooms or similar areas. There is a nurse call button and an emergency call cord on the unit. In an emergency, the patient pulls the cord to immediately start an emergency voice call with the assigned Nurse Control Panel. When the nurse call button is pressed, a regular priority WC Emergency Call is made.

This device is Water-Resistant.

Technical Specification

ZKRUNCIPCNFWCS001

Weight	190 g
Width	135 mm
Depth	25 mm
Height	180 mm
Rope Capacity	Max 30kg
Operating Temperature / Humidity	-10°C +60°C / % 30 %80 RH
Raw Material	PC/ABS/FR
Speaker	3 Watt
Color	White
Communication	SIP, TCP/IP
Speech	SIP Full Duplex
Ports and Slots	1xRJ45
